ABOUT US

Vision

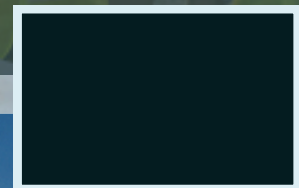

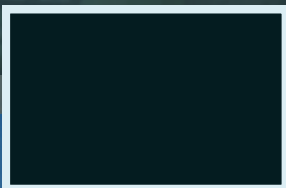

To be the leading provider of advanced surveying and mining engineering solutions in Africa and beyond, setting the benchmark for precision, innovation, and sustainable practices.

Mission

To support our clients and communities by delivering precise, safe, and environmentally conscious surveying and mining engineering services that enhance decision-making and promote responsible resource development.

Values

Safety | Integrity | Quality | Innovation | Teamwork | Sustainability | Reliability
Accountability

OUR SERVICES

Underground Mine Survey	Topographic Surveys	Slope Mapping
Claims Beacon Survey	Mining Claims Title Management	Orebody Modeling
Mining Claims Pegging	Construction Engineering Survey	Mine Pit Designs
Mine Site of Works Plan	Survey Control Network	Digital Terrain Model
Volumetric Surveys	Boundary Retracement	Airborne Surveillance
Siting of Works Plan design and survey		Tailing Storage Facilities design and construction

MEET OUR TEAM

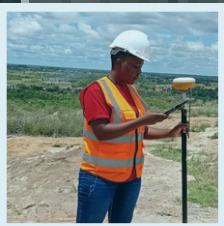

GWINYAI
(Director)

Registered Mine Surveyor and 2025 Senior Member of the Association of Mine Surveyors of Zimbabwe, with over a decade of experience across all eight provinces and private-sector expertise in gold, platinum, lithium, and base metals—now leading Mining and Processing Hub P/L to deliver profitable mining investments and strategic partnerships nationwide.

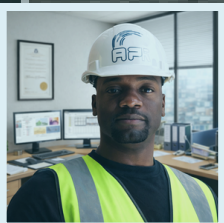

NOMALANGA
(Administrator)

Honors in Administration from the University of Zimbabwe, bringing 7 years of high-impact experience in administrative leadership, streamlining operations, and driving organizational efficiency to deliver measurable results and maximize business performance.

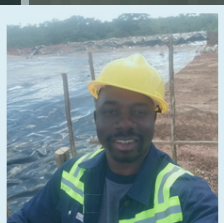

CATHERINE
(ASS Surveyor)

Trained at the Zimbabwe School of Mines, bringing 4 years of hands-on mining expertise and operational experience, with a proven ability to optimize processes, support strategic mining initiatives, and deliver impactful results in the sector.

SIMBARASHE
(Metallurgist)

A Metallurgical and Process Engineering professional with over 15 years of experience in mineral processing, gold pilot plant operations, and metallurgical testwork in Zimbabwe and Mozambique. He specializes in process optimization, plant performance improvement, quality control, and plant commissioning, delivering practical, high-recovery solutions with strong technical expertise and integrity.

AMON
(Metallurgist)

A results-driven mineral processing professional with experience in gold and base mineral plant startups and established operations. Skilled in plant operations, maintenance, safety systems, leadership, and capital expenditure control. He has contributed to plant design, installation, commissioning, and supported NGO projects promoting mercury-free small-scale mining. Educated at the Zimbabwe School of Mines and the Engineering Institute of Technology.
